My sister has just become a Pampered Chef Consultant and I want to help get her business started. In addition to helping her, the products you buy can help you get dinner on the table fast!

You can browse online (pamperedchef.com) in the comfort of your home or flip through a catalog (I have one for you). I will call you and take your order (please don't order online or she will miss out on the sale). The high-quality products will help you put more love and less labor into cooking and entertaining. Also they make great Christmas presents.

I will send the orders to my sister for this "Comfy In Your Home" Pampered Chef Party by Monday, October 29th.

Trish

P.S. You can host a party and get lost of stuff at huge discounts! See below!
