

*We've decided to have a Pampered Chef Bridal Shower!
Now what do we do?*

Bride:

- ❖ *Fill out and return the Wish List to me. Choose a lot of products in all price ranges so your guests have a wide range to pick from!!*
- ❖ *After your shower, pick additional free and discounted gifts from your revised list (after you see the products you will likely want to add to the original list).*
- ❖ *Look over the information about our Business Opportunity - wouldn't you like to have extra money to pay some of those wedding expenses and maybe extend the honeymoon a few days... and have more time with your new husband?*

Host:

- ❖ *Decide on the recipe I will demonstrate and on the rest of the menu.*
- ❖ *Together we will determine the details of the party - I can provide invitations, centerpiece, corsage, guest favors, Pampered Bride Apron for the bride, etc. at nominal costs (I do provide some of these as my gift to the bride). I also have games to choose from if you like.*
- ❖ *Send out the invitations to all the bride's relatives & friends. Don't forget out-of-town relatives & friends - their personal orders can be delivered directly to their home for a small additional shipping charge!*
- ❖ *Be sure that everyone knows that they should **not** bring a gift - they will be purchasing items from the bride's list at the party. Encourage them to also purchase for themselves. Those orders add to the bride's benefits (free products!!).*
- ❖ *Encourage outside orders before the shower - these can be from people who do not even know the bride! Again, she will get additional host benefits from those sales!*
- ❖ *Purchase the recipe ingredients, other food, beverages and paper products for the party.*
- ❖ *Record the gifts for the bride on the Gift Record.*
- ❖ *Contact those who weren't able to come to the party so that they will be able to order their gift for the bride (and a few things for themselves too!).*
- ❖ *Enjoy host discounts along with the bride! AND Consider the Business Opportunity - you have just done much of what I do - why not get a paycheck for it!*

Guests:

- ❖ *Collect outside orders to bring to the party - this will increase the amount of free products that the bride will receive.*
- ❖ *Do **not** bring a gift to the shower - you will be choosing your gift for the bride from among the products that she has indicated that she would like. Don't forget to get some great kitchen tools for yourself too.*
- ❖ *Consider booking your own show to get free products and discounts - this also benefits the bride! AND Consider becoming a Pampered Chef Consultant and get paid to party - you won't know if you don't try!*
