Peppermint Crunch Bark

As simple as can be, this giftable confection will be in hot demand around the holidays.

- 3 candy canes ($\frac{1}{4}$ cup/50 mL coarsely crushed)
 $\frac{1}{2}$ pkg (10 oz/300 g) chocolate-flavored almond bark or confectionery coating candy melts
 $\frac{1}{2}$ pkg (5 mL) peppermint extract
 1

1. Place candy canes into a large resealable plastic bag and coarsely crush using flat side of **Meat Tenderizer**; set aside. Line **Medium Sheet Pan** with a piece of **Parchment Paper**, allowing 1 in. (2.5 cm) to extend past sides; set aside.

2. Place chocolate bark in **Large Micro-Cooker®** and vanilla bark in **Classic Batter Bowl**. Microwave chocolate on HIGH 1 1/2 minutes or until bark is almost melted; stir until bark is completely melted. Repeat with vanilla bark. Add peppermint extract to melted chocolate bark, mix well.

3. Drop alternating scoop of the chocolate and vanilla barks onto sheet pan using **Medium Scoop** (four rows of five scoops, spacing $\frac{1}{2}$ in./1 cm between each row). Cut through bark mixture several times with **Small Spatula** for marble effect. Gently tap pan flat against countertop to level bark. Sprinkle with crushed candy canes.

4. Refrigerate at least 15 minutes or until bark is set. Break into pieces.

Cook's Tip: For even marbling, alternate scoops of barks onto the Medium Sheet Pan. Drag the edge of the Small Spatula both lengthwise and crosswise. Tap the pan flat against the countertop to level the surface and fill in any gaps and air bubbles.

For a more professional finish, place crushed candy canes into ($6\text{-in.} \times 13\text{-cm}$) **Strainer**; shake to remove the finer pieces of the candy canes.

Finished bark can be stored in an airtight container in the refrigerator up to several weeks.

Christmas Stocking Cake

The graham crackers in this no-bake dessert soften and magically form thin layers of cake. Candy decorations are used to create a stocking shape.

- 1 pkg (8 oz or 250 g) cream cheese, softened
 1 1/2 cups (300 mL) cold milk
 1/2 cup (34.5 oz or 102 g) white chocolate instant pudding and pie filling
 1 container (16 oz/454 g) whipped topping, thawed, divided (5 cups/125 L)
 20 whole cinnamon graham crackers (about 5 x 2-in./13 x 5-cm rectangles), divided
 1/2 cup (50 mL) prepared red decorating icing
 Candy decorations

- Beat cream cheese in **Classic Butter Bowl** on high speed of electric hand mixer until smooth. Slowly add milk and continue beating until smooth; occasionally scraping down sides of bowl with **Classic Scraper**. Add packing mix and beat an additional 2 minutes or until thickened. Fold in 4 cups (500 mL) of the whipped topping.
- Spread one side of five of the crackers with a small amount of the filling. Arrange crackers, filling side down, in a boat shape on **Simple Additions® Large Rectangular Platter with Handles** (see Cook's Tip). Top with one-third of the filling. Repeat layers two more times, ending with crackers.
- Attach open star tip of **Easy Accent® Decorator** fill with whipped topping (about 1/2 cup/35 mL). Frost top and sides of cake with remaining whipped topping using **Small Spatula**. Decorate as desired with long decorative cut, toe and heel using decorator. Refrigerate at least 6 hours or overnight. Before serving, decorate with candies (see Cook's Tip). Serve chilled.

Yield: 12 servings

Cook's Tip: To form the boat shape, place four of the crackers onto the platter then add the fifth cracker alongside the bottom to create the "bow." The small amount of filling on the underside of the crackers keeps them from sliding as the filling is spread over them.

Some candies shouldn't be placed onto whipped topping overnight, because the colors can bleed. For best results, place candies onto cake within a few hours of serving.
