

THIS does not look like an instrument which will beat an egg in THIRTY SECONDS, but it does. Not only does it beat an egg, but also beats anything ever introduced for the purpose.

**The Economical  
Egg Beater and  
Cream Whipper**

(Patent Applied For)

is the latest and best egg beater on the market. It is equally as good for whipping cream, mixing custards, and all kinds of fancy desserts. It has a flange one-quarter inch wide on inside bottom of barrel to act as stop and cushion to plunger.
