- Start with a **Simple Additions® Dots Round Plate**. Invert **Simple Additions® Dots Small Bowl** on plate; place a second **Dots Small Bowl** right side up on top of the first one.
- Cut a small square of floral foam and soak it in water to saturate. Place it into the top bowl. (Floral foam is available at craft stores and garden centers.)
- Trim 12 carnation stems to 5 inches long; trim 18 to 20 carnation stems to 1½ inches long.
- Insert the carnation stems into the foam, starting with the shorter stems in the center and working outward with the longer stems to form a rounded shape.
- You can also create this centerpiece with silk flowers and display it at every Cooking Show. If you use silk flowers, substitute Styrofoam® for the floral foam and secure the stems with a hot glue gun.

Fill a **Simple Additions® Rectangle Platter** with festive seasonal accents.

- Use a variety of pillar candles in the same color but different heights.
- Wrap colored ribbons around the candles and secure with a pearl-topped pin.
- Fill the platter with fresh cranberries.
- Change the accents and ribbons to match the season. For instance, use small ornaments in blue and silver for the holidays, candy corn for Halloween or jelly beans for spring.
