Assembly Order

They do this themselves! Great hands on and they can be creative!!

Bread
 Mayo/Mustard with Spreader
 Meat Platter
 Cheese Graters
 Condiments (pickle, onion, olives)
 Salt and Pepper

Your Teaching about assembly

Grated cheese always works best , melts very fast!
 More than one cheese gives sandwich more interest
 Two different spreads (one on each piece of bread) give more gourmet flavor
 Onions should be very thin
 Olives can be replaced with chopped olive mixtures often found in olive section of most supermarkets (check the top shelf)

Your job

Preheat **Grill Pan & Grill Press**. When guest has completed their sandwich, butter lightly with melted butter using **Silicone Basting Brush**. Place on Grill pan and press with Grill Press. Turn with **Nylon Turner**. Cook for about 2 min total to melt cheese and blend flavors. Between sandwiches place the grill press on the Hot Pad Trivet or New RUFTH trivet!

Great show, they have created their own masterpiece. Encourage friends to cut sandwich in half and swap with a friend for a new taste experience!!
