Crystal Ice Creations

What you need:

- Small and large Colander Bowls from the **4-Piece Colander & Bowl Set**
- Choose any of the following decorations:
 - Lemon, lime or orange slices
 - Fresh herb sprigs
 - Fresh whole cranberries
 - Fresh or artificial flowers or leaves
- Water

Add a touch of elegance to your fall gatherings with this eye-catching creation!

Line inside of large **Colander Bowl** with fruit slices, herbs or flowers. Fill bowl two-thirds full with about 9 cups of water. Place small bowl inside large bowl; fill small bowl to top with water, allowing excess water from large bowl to overflow.

Place bowls on level shelf in freezer; freeze 24 hours or until solid.

Unmold ice bowl by placing both filled bowls of ice in sink filled with warm water (about three-fourths up the sides of large bowl). Let stand in water 5-8 minutes or just until ice begins to release from sides of large bowl. Carefully remove small bowl from molded ice. Place ice bowl on napkin-lined serving platter.

Fill ice bowl with cocktail shrimp or fresh vegetable dippers, or use as a chiller for your favorite bottled beverage.
