Patriotic Towel Set Chair Covers

No sewing is required to create these chair covers, perfect for your deck or patio.

For each chair cover you make, you'll need:

- one Patriotic Towel.
- a large eyelet kit that includes an eyelet setter.
- a total of 12 eyelets.
- coordinating ribbon.

1. Fold the towel from top to bottom, bringing the short ends together.
2. Mark three evenly-spaced areas for eyelets on the sides of the folded towel (both front and back), to prepare you for making 6 pairs of eyelets.
3. Following kit instructions, set eyelets into place.
4. Drape towel over chair back and line up the eyelets.
5. Thread coordinating ribbon through each pair of eyelets and tie in a bow.

Note: Chair covers may not be suitable for all chairs.
